

PROGRAMME OVERVIEW

Start-up & Spin-off Support Scheme is a mentoring programme focused on LASER-PRO's domains of specialisation, supporting start-ups and spin-offs from idea validation through market growth to investor readiness.

- Designed for **individuals** with an innovative idea, **early-stage** start-ups/spin-offs, and **established** start-ups/spin-offs preparing for growth or investment.
- Available in **the Czech Republic, Lithuania, and Ukraine** during **June 2026–June 2028**.
- Starts with an **Entry Analysis** that defines key priorities and serves as a structured support roadmap for the mentoring period.
- Combines **mentoring, expert consultations** and **connections** focused on concrete next steps.
- **Follows an individual approach tailored to your current stage**, focusing the support on the most relevant priorities.
- **The support is covered within the LASER-PRO project framework** based on the agreed scope and needs.
- Intended for **active participants** who want to move forward, engage consistently, and turn mentoring into real progress.

LASER-PRO DOMAINS

**Sustainable Manufacturing
with Advanced Laser Processing**

**Next-Generation Laser Technologies
for the Semiconductor Industry**

**Laser Applications in Biomedicine
and Biotechnology**

**Digital & 3D Printing
in Laser System Development**
